## CONFERMA

Country: RUMANIA

SUBJECT: REDUCTION OF STRENGTH OF THE ARMED FORCES

The communique of 24 May 1958 on the decisions of the MOSCOW Conference annunced:

A Reduction 55,000 members of the Rumanian Armed Forces, by far the greatest reduction among the Satellites. The apparent explanation is that in proportion to the size of the area and to the tasks, Rumania had the highest strength. This supports the estimate of 270,000 members of the Rumanian Armed Forces, not including the troops of the N.A.I./Zsic; M.A.I. (Ministry of the Interior)?

The steps reserved already taken include: call up of only one part of January 1958 quota; EXECUTE returning to their homes the members of the Armed Forces who had completed one year of service; transfer to the reserves of many career officers. This has just begun to go into force and there is noticeable considerable worry among the officers on active duty who are afraid of losing their posts.

There is already a considerable reduction of the troops which were formerly in garrison; this is the case at BUZAU.

B A complete withdrawal of <u>Soviet Forces</u> stationed in RUMANIA is announced for the near future. There was formal confirmation by the Soviet Ambassador and the Military Attache who agreed that Western ebservers would have full opportunity to verify this.

The following steps are now in progress: the children of the Soviet officers and XXX noncommissioned officers are now taking their

final examinations in the schools. The families are all getting readven Sanitized Copy Approved for Release 2010/06/17: CIA-RDP80T00246A044100390001-9

to leave immediately after the examinations. The sale of many	25X1
household goods has started. The inventories of the Soviet installations such as warehouses, schools, and hotels will be given to the Rumanian	
authorities. There are unmistakable movements and preparations in	
the Soviet barracks.	
the evacuation would be completed	25X1
in August beginning of September.	
Consequently, the Rumanian General Staff is faced with a difficult	
duty. It will have to occupy all the Soviet military installations and	
at the same time it will be demobilizhing 55,000 men. It may be in	
this connection that we must explain the call-up of thousands of	
reservists from 24 to 45 years old, observed at BCUHAREST from 31	
May to 4 June. (These are probably the specialists needed to	
maintain Army installations and air bases.)
